METER MARKS:

A PARTIAL INDEX.

BY:

Michael Hartnett,

Roger O'Donoghue,

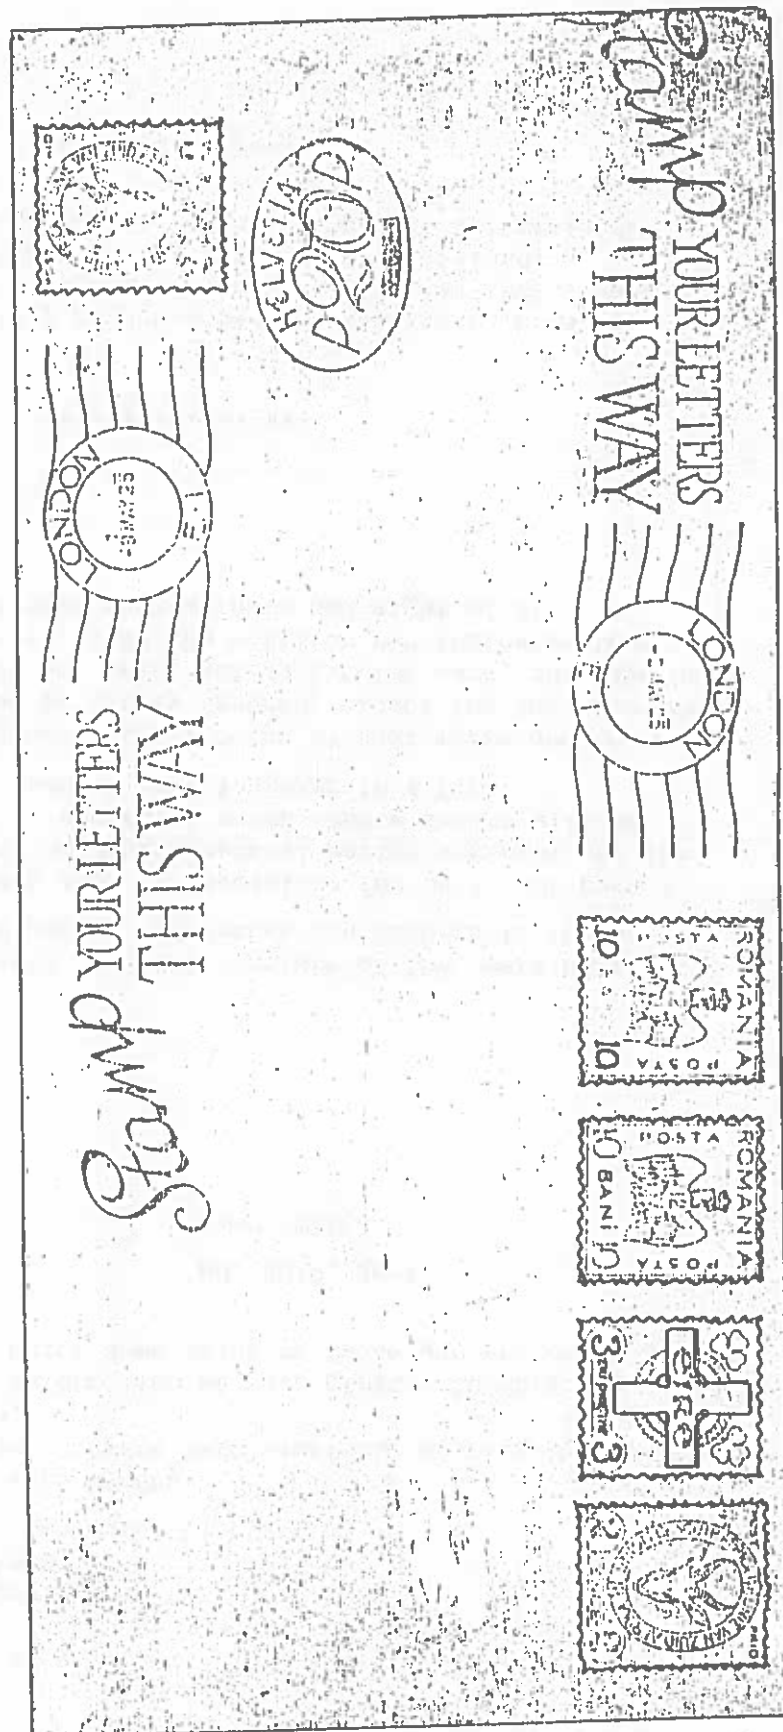

&

James P. McAllister.

A SUPPLEMENT TO THE MWS
NEWSLETTER.

NO 6

We used to hope that one day, we would be able to produce a complete index of all the meter marks used in Ireland. However, with advancing years, the almost impossibility of this task has become more evident. Whilst it may have been an attainable ideal in past years, the growth in the use of Franking Machines makes completeness less attainable with the passage of time. It is estimated that over one-third of all mail is now meter franked, and that percentage appears to be growing quite rapidly.

We have over the years accumulated corresponding numbers. With the two-fold objective of -

a) Sharing our research with others,

and b) in the hope of 'nudging' others into similarly sharing the results of their own research,

we have decided to pass on the information we have gleaned to date. We hope that this listing will be of some value to those who are doing similar work.

MH, R.O'D, Jmca.

March 1991.

Notes:

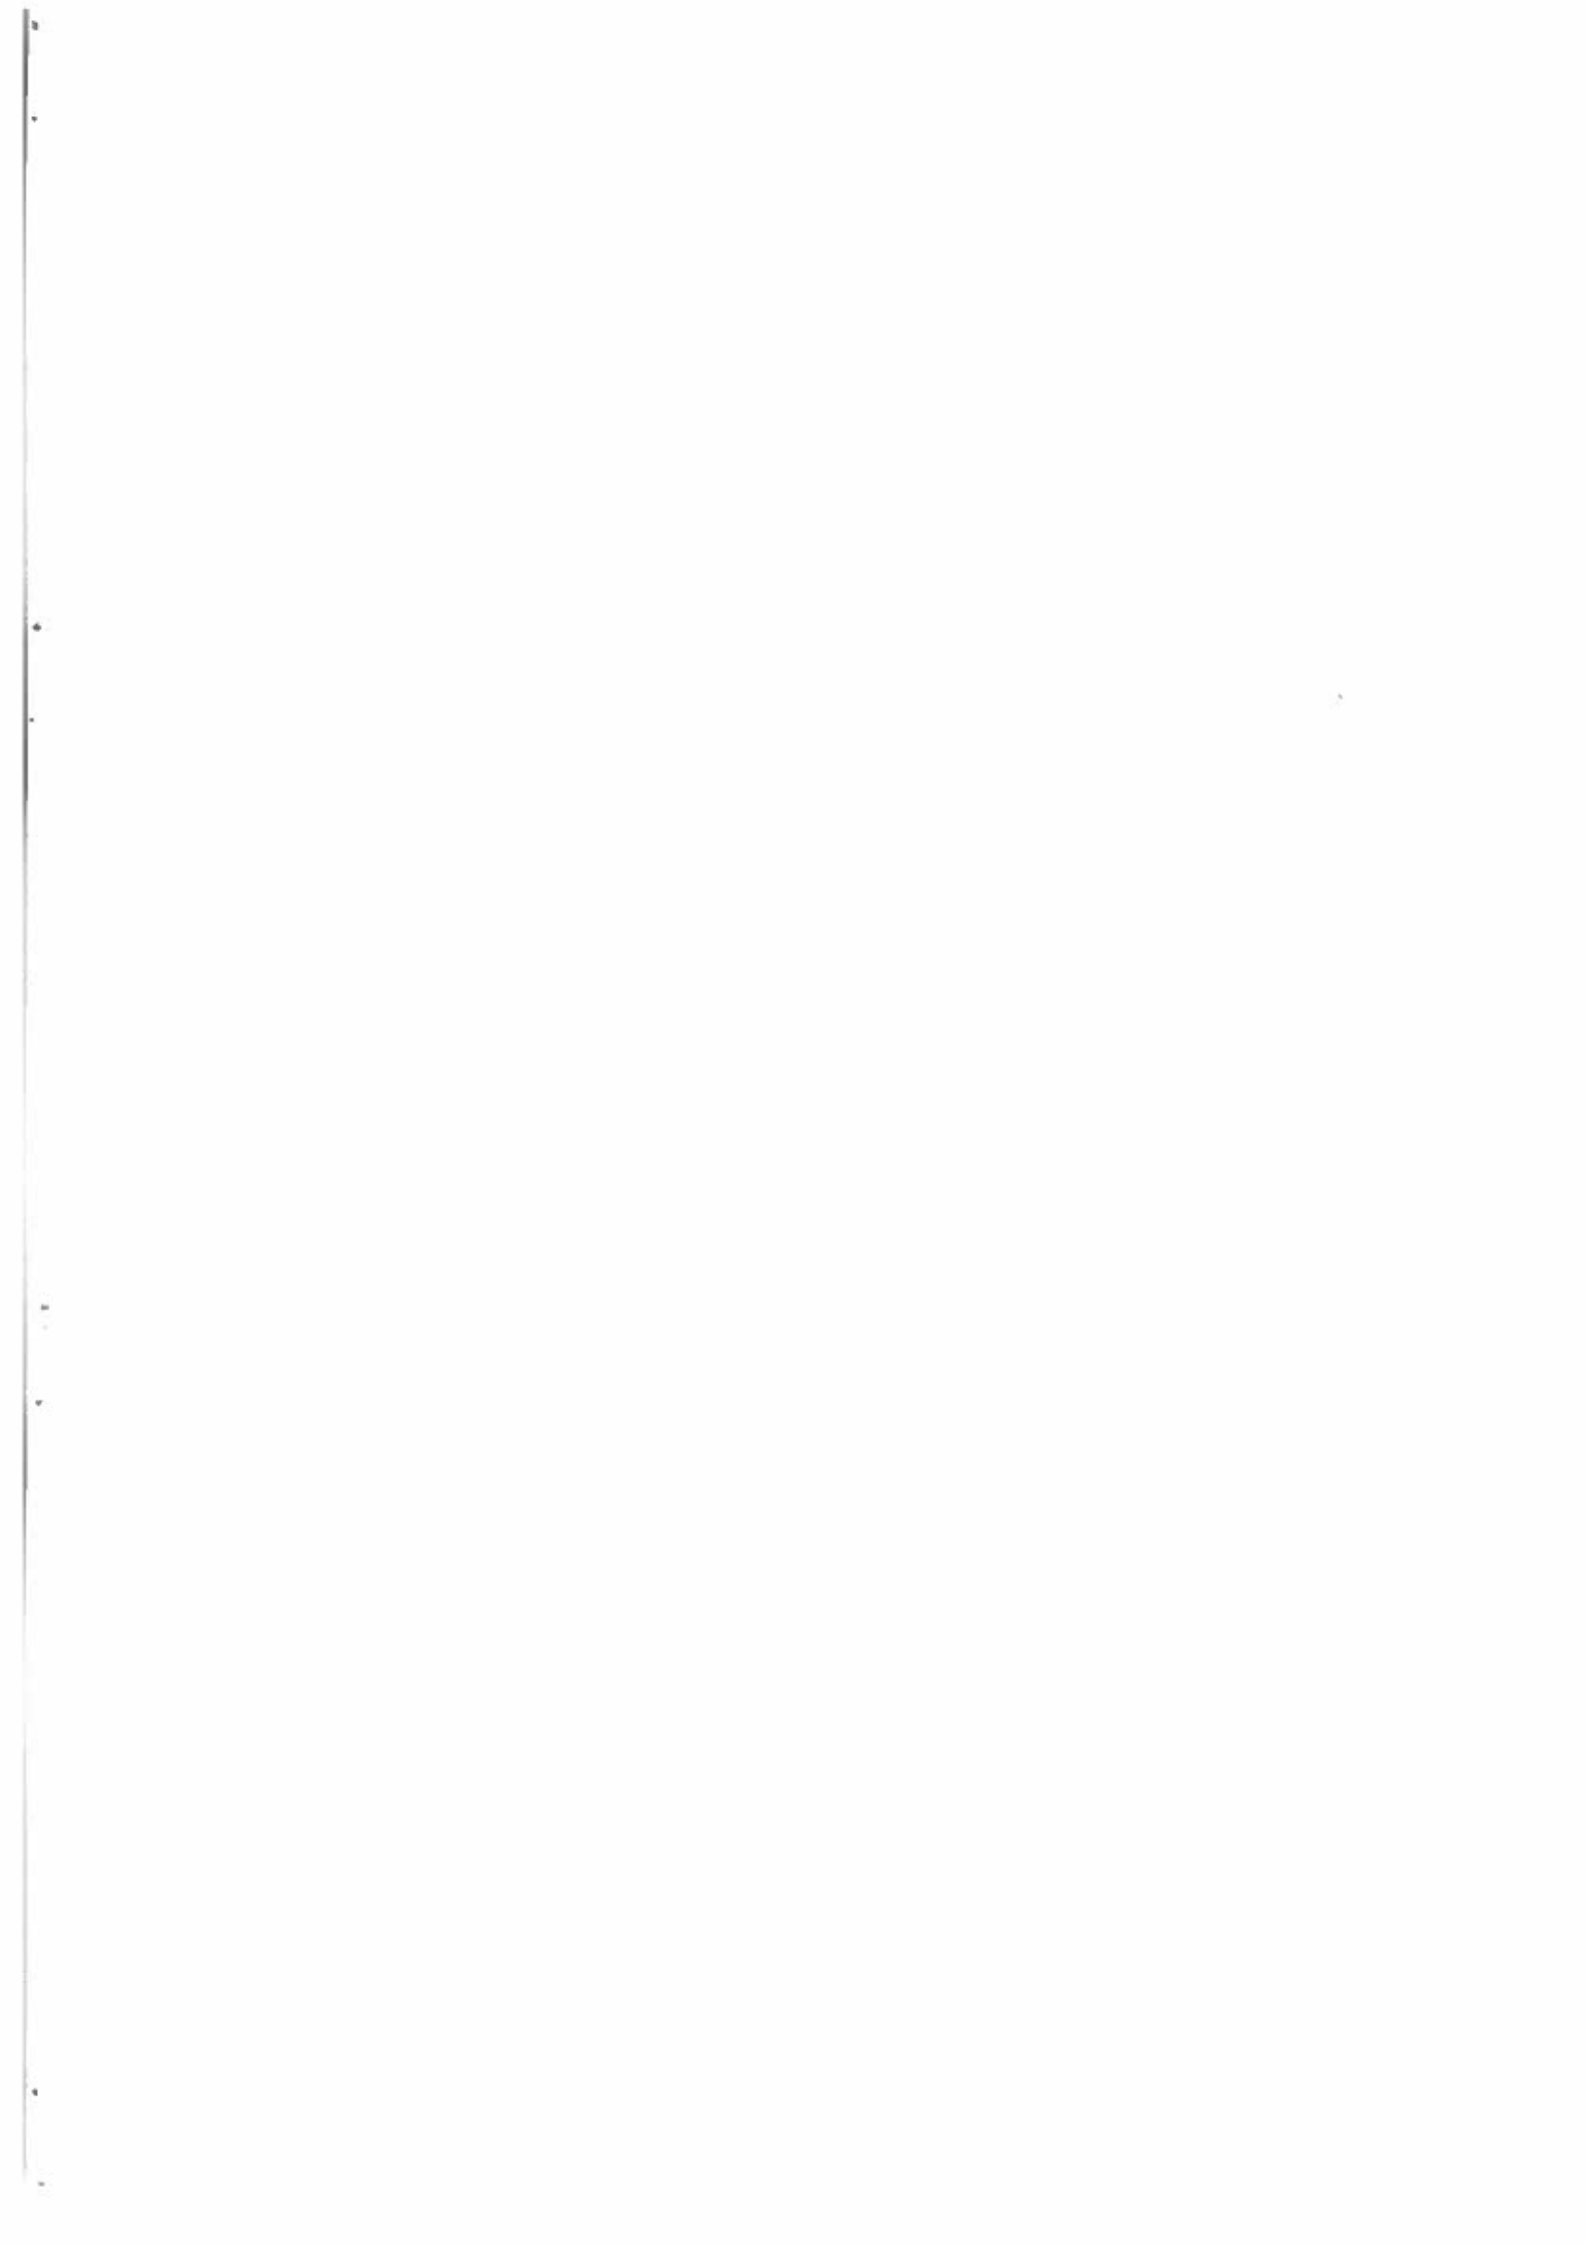

The 'partial Index' is in two parts - part 1 consists of the users names, referenced to their numbers and part 2 references the numbers to the users. Regrettably, time constraints have made it impossible for us to put part 1 into alphabetical order, we have used alphabetical series instead; and for the same reason, part 2 is not in numerical order. These faults will be rectified in a future edition, when we have invested in a P.C.

The numbers in the left hand column simply refer to that marks number in our combined collection, and may be safely ignored, except for the notation "X" which indicates that we have not seen that particular mark, but have had it verified to us by a third party. Also the notation "=" indicates that while we have not got a copy of that mark we have had sight of it.

Cover: A specimen cover, possibly produced for an Exhibition. Note the use of an "Irish Stamp" coupled with the date - 9th. May 1925 - approx. one year before Meter Franking was introduced to Ireland. The Swiss mark as illustrated was actually used in Switzerland.

Index.

- 3. Part 1: A list of users, in alphabetical sequence.
- 19. Part 2: List of Franking Machine Numbers by Prefix letter.
- 40. Prefix Guide.
- 41. Dates of use.

A listing of franking machine users, in alphabetical series.

Universal - introduced:1968.

Prefix Guide.

A	Pitney Bowes
EF	Envopak
H	Hasler
HF	Hasler
J	Roneo Neopost
M	Postage Meters & Machines
N	Neopost
NP	Roneo Neopost
NV	Roneo Neopost
PB	Pitney Bowes
RV	Roneo Neopost
S	Frankopost (Universal Postal Frankers)
U	Universal Postal Frankers
Number Only	Hasler
Number + Suffix	Hasler

Notes:

1. Neopost Ltd., changed name to Roneo Neopost in 1931.
2. Postage Meters & Machines became Pitney Bowes in 1960.
3. Pitney Bowes use a third prefix letter - e.g. P.B.L...., P.B.T.... etc.

Dates of Use.

Given the somewhat primitive conditions under which we have produced this listing, it would have been excessively difficult to add dates of use to the main text. Accordingly, we have listed these separately hereunder. To find the date of use of each mark, it is necessary to mentally number each entry under each letter of the alphabet in part one of the list. For example, under A, Aer Rianta is number 1. and Apex of Dublin is number 37. Under B, Bank of Ireland (page 5) Shannon is number 5. Aer Rianta thus becomes - P. (page) 4. A. 1., and the date of issue can be read off as 3rd. March 1988. Similarly, Apex, also under P.4. A no. 37, is 2nd. Jan. 1990., and Bank of Ireland Shannon was used on 14th. September 1988 (14.9.88).
